Custodial Parent Portal Offers Child Support Application Convenience

The Department of Social Services' Child Support Services Division has a new and more convenient way to apply for child support services through the new Custodial Parent Portal. This new portal provides 24/7 online access to individuals applying for child support services from the Department of Social Services. Non-custodial parents can use this portal as well. The new online application will cut the processing times of clients by eliminating cumbersome paper applications, as well as save client's time by not having to come into a physical DSS office to apply. The portal can be found on the DSS website at <https://clientportal.dss.sc.gov/#/>.
